it is clear even to casual observation that economies evolve from year to year and over centuries yet mainstream economic theory assumes that

economies always move towards equilibrium one consequence of this is that mainstream theory is unable to deal with economic history the evolution of economies provides a clear account of how economies evolve under a process of support bargaining and money bargaining both support bargaining and money bargaining are situation related people determine their interests and actions by reference to their present circumstances this gives the bargaining system a natural evolutionary dynamic societies evolve from situation to situation historical change follows this evolutionary course a central chapter of the book applies the new theory in a re evaluation of the industrial revolution in Britain showing how specialist money bargaining agencies in the form of companies evolved profitable formats and displaced landowners as the leading sources of employment and economic necessities companies took advantage of the evolution of technology to establish effective formats the book also seeks to establish how it came about that a mainstream theory was developed that is so wildly at odds with the observable features of economic history and economic exchange theory making is described as a process of intellectual support bargaining in which theory is shaped to the interests of its makers the work of major classical and neoclassical economists is contested as incompatible with the idea of an evolving money bargaining system the book reviews attempts to derive an evolutionary economic theory from Darwin's theory of evolution by natural selection neoclassical economic theory has had enormous influence on the governance of societies principally through its theoretical endorsement of the benefits of free markets an evolutionary account of economic processes should change the basis of debate the theory presented here will be of interest immediately to all economists whether evolutionary heterodox or neoclassical it will facilitate the work of economic historians who complain that current theory gives no guidance for their historical investigations beyond the confines of professional theory making many will find it a revelatory response to questions that have hitherto gone unanswered

Bernard Maris was killed in Paris on January 7 2015 during the terrorist attack against the satirical magazine Charlie Hebdo he remains one of the most original intellectuals of contemporary France but despite being a uniquely original heterodox thinker his international reputation has been compromised by the fact that his writings are inaccessible to non-French speakers this book remedies that by providing an overview of Bernard Maris' life and intellectual trajectory as well as an English translation of an anthology of his most relevant writings this volume provides the international audience for the first time ever the chance to know and understand the contribution of this major heterodox economist an outstanding and atypical figure in economic thought and a virulent critic of mainstream dominant economics he was also an all-round actor and

thinker of his time through rigorous reasoning he questioned the notion of well being which he argued is too often conflated with having more enslavement by work or the endless destructive accumulation of natural wealth is also inherent to the capitalist system probably his most original contribution is his epistemological reflection on the very nature of economics and his appraisal of this discipline as a form of rhetoric this book will be of great interest to readers in heterodox economics economic methodology epistemology and french literature and culture more broadly

this macroeconomic book is in notes form and very suitable to quickly revise the economics concepts this book can be used by students instead on making their own notes for quickly revising the concepts before the exams
